

- Open Internet Explorer
- Go to www.windowsupdate.microsoft.com
- Choose "CUSTOM INSTALL"

(Windows will begin scanning your system, wait for it to finish)

- Choose "REVIEW OTHER UPDATES" (if prompted)
- On the left navigation window, choose "SELECT OPTIONAL SOFTWARE UPDATES"
- Look for "MICROSOFT .NET FRAMEWORK" on the main window and check its box.

- Click "GO TO INSTALL UPDATES"
- Reboot if prompted
