Hydraulic Arm Edge wins 4th award!

OWI, Inc.® - Moms and educators of the 2016 Creative Child Magazine Awards Program has privileged Hydraulic Arm Edge with two awards: "2016 TOY OF THE YEAR AWARD" and "2016 KIDS PRODUCT OF THE YEAR AWARD". TTPM Most Want List Award in the Educational: STEM category, and Dr. Stevanne Auerback (child development expert, writer, and toyologist) as 100 Best Children's Products.

No longer riding the wings of the award winning Robotic Arm Edge, OWI has made robotic arm technology a little more interesting and hydro-mechanically fun. With **Hydraulic Arm Edge**, command six axes of varied movements: the gripper to open and close up to 1.89 inches, wrist rotation of 180 degrees, wrist mobility of 98 degrees, elbow range of 44 degrees, base rotation of 270 degrees, and shoulder motion of 45 degrees. With a vertical reach of 16.35 inches, horizontal reach of 12.42 inches, and lifting capacity of 50g, your robotic friend is ready for your genius to erupt. With the removal of the gripper, you can activate the suction apparatus. This feature enables the user to elevate objects with a larger surface area (like a small mobile phone). Another prodigious attribution is a braking system that is integrated in the lever controllers to execute all commands accurately. WOW!

How does this equate to fun? Your children will have total command and visual manipulation using the science principles of a Hydraulic system and its application. Easy to follow instructions with detailed graphic illustrations pave the way for successful and satisfying kit building. Compliment your engineering, math, science, and technology learning strategy. **No battery or motor required. It is powered by water;** thus, the "Hydraulic" significance and how it manipulates axes movement via lever controllers. For more than 3 decades, OWI continues its pursuit to satisfy educational instructors and the most discriminating parents. **Hydraulic Arm Edge** is recommended for ages 10 and up, but with its 229 assembly parts, it will challenge the beginner engineering enthusiasts.

Suggested selling price: \$ 49.95 USD
